

Omnicare Your one-stop service solution

MAN PrimeServ

360° service and support

Different equipment from multiple OEMs, variations in cost structures and contracts, inconsistent or no service levels, and endless people to deal with can make things inefficient and expensive. In an ideal world, this would all be covered in a single, simple, comprehensive package.

Welcome to Omnicare from MAN PrimeServ – a one-stop service solution that provides complete support for all your equipment – engines and turbomachinery – regardless of manufacturer, and backed by PrimeServ Warranty.

For you this means simplicity and efficiency for your fleet or plant management, while minimizing unplanned downtime and extending the lifetime of your assets.

Tailored to your needs

With Omnicare, everything is covered by a single, comprehensive service agreement, tailored to your needs, and designed to reduce the cost and complexity of your asset management.

This includes full train services (spare parts, inspections, repairs, modifications, overhauls, etc.), digital service solutions (24/7 remote monitoring and optimization), and footprint replacements (replacing end-of-life equipment with new MAN ES machines).

We are also an authorized service provider for CENTA couplings, MET turbochargers, and C.C.JENSEN lube oil filtration.

One-stop service

A single, dedicated point of contact for 360° maintenance and service of your equipment, independent of manufacturer.

Technical expertise

A consistent and high level of service quality from our trained engineers, backed by the global resources and reach of MAN PrimeServ.

Cost-efficient

A single, simple service cost framework that saves you time and money, and maximizes the lifetime value of your equipment.

Global network

24/7 access to our trusted global network, no matter where you are or when you need it, with experienced people ready at a moment's notice.
