May 2013

Concerns

Owners and operators of MAN Diesel & Turbo four-stroke diesel engines equipped with AT2000 PCS

Dear Sir / Madam

We have been informed that in some cases operators of AT2000 PCS have been in doubt as to where the button for backup control (emergency control) of the AT2000 PCS is situated. In order to make it clearer for the operators, we have made an additional sign marked "Emergency" (Marked 38 on the attached drawing) to be mounted on the Main Control Panel on the bridge.

The new sign can be ordered free of charge from our Technical Service Department:
